

## PE and Sports Premium for Primary Schools

At Rowena Academy we believe PE & Sport plays an important role in making our vision statement a reality for every pupil, with the potential to change young people's lives for the better.

Through PE & Sport our children learn to develop the important qualities of discipline, resilience, communication, team work, and ambition, leading to improved concentration, attitude, and academic achievement.

We have welcomed the Government's announcement in June 2013 to provide additional funding to improve provision of physical education (PE) and sport in primary schools. We are committed to using this resource in developing high quality PE lessons, alongside greater opportunities for sporting competitions and clubs for all our pupils.

### What does the Sport Premium mean for our Academy?

*'Schools must spend the additional funding on improving their provision of PE and sport, but they will have the freedom to choose how they do this' (DfE June 2013).*

We are working closely with **Active Fusion** [www.activefusion.org.uk](http://www.activefusion.org.uk) and have identified key areas through a self-review process to ensure we can meet the high expectations in PE and Sport for our children.

*'Schools will also be required to include details of their provision of PE and sport on their website, alongside details of their broader curriculum, so that parents can compare sports provision between schools, both within and beyond the school day'- (DfE June 2013)*

<p>Motor-On Programme</p> <p>£11,000</p>	<p>Identified children will take part in the Motor On programme. The focus will be on the development of both gross and fine motor skills. They will show increased confidence in their own abilities, which will have a direct impact on their motivation and resilience in the classroom. Their self-esteem will be raised and the children will interact with their peers and collaborate more readily and cooperatively. Their motor skills will be developed and refined which will allow the children to access a whole range of experiences that would have previously been frustrating or difficult. This allows children more experiential learning and opportunities to explore the environment around them. An increase in motor skills should result in better development of communication and language skills.
